SUBMITTAL:

JOB:

TYPE:

VOLTAGE:

SML SERIES

FEATURES

- Architectural design delivers uniform distribution.
- High Visual Comfort allows multiple applications for commercial lighting.
- LM 79/LM 80 approved DLC approved.
- Minimum 83 CRI.
- Polycarbonate body frame construction prevents damage in shipping and installation.
- Emergency Battery back up option.
- Standard 3500K, 4000K and 5000K.
- LED Package
- Replaceable LED panels.
- 0-10 volt Dimming control systems compatible.
- 40,000 hours warranty on LED Driver, 80,000 hours on LED panels.
- Light weight 6 pounds total.

SML 1X4

SPECIFICATIONS

Fixture housing – UL Listed 100% virgin acrylic with polycarbonate frame 14 gauge extruded aluminum cross struts for rigidity and LED heat control.

Diffuser – Frosted acrylic with 90% transmittal of light.

Finish – 90% reflective white acrylic plastic interior reflector. Exterior fixture parts 100 % acrylic Architectural Matte White. Patented **Savenergy** luminaire system warrants fixture and parts for 10 years. (Refer to Limited Warranty) Light Engine LED Driver warranted for 5 years.

LED Module – Patented LED Module by **Savenergy** Lighting using LED Diodes by CREE.

Electrical – Constant current, Class 2 driver. Micro High Tech, LTD.

Mounting – NEMA Type “G” suspended T grid system. (see options for other ceiling applications)

Certifications – UL STD 1598 and UL STD 8750 Certified to TUV-NRTL Standards. Suitable for Damp Locations. LM79 and LM 80 approved and DLC Certified.

Warranty – 10 Years on LED panels, 5 Years on LED Driver.
